

CustomerIQ - Business Intelligence & Growth Analytics Platform

Product Vision

CustomerIQ is a multi-tenant business intelligence platform that helps business owners upload sales and customer datasets and instantly receive analytics, rankings, insights, reports, and growth recommendations.

The goal is not just to display charts, but to explain what the data means and what actions the business should take next.

Inspired by:

- Instagram Insights
 - Shopify Analytics
 - Google Analytics
 - Duolingo Leaderboards
 - Modern SaaS Dashboards
-
